# SCIENCE BOT

Annalisa Bardini, Enrico Delia, Federico Guerra,
Emily Kreuzer and Olga Pallini

TARGET

Who is this bot for?

- High school students

- People interested in science
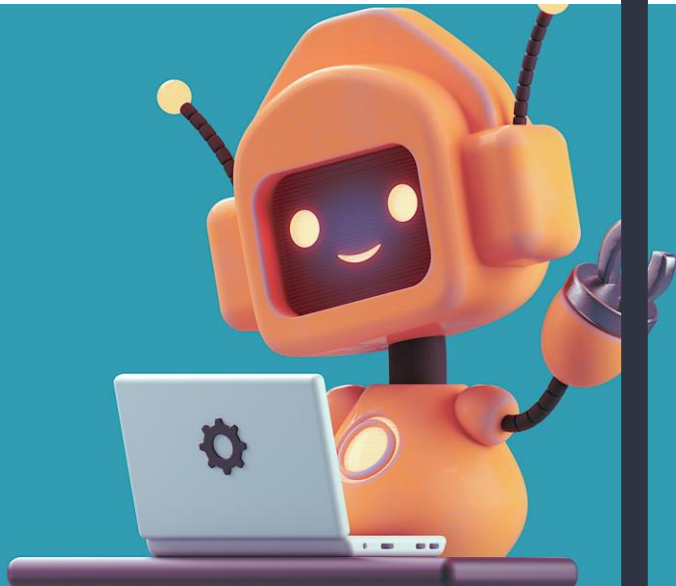

PROBLEM

Why is this bot useful?

- Science is not considered interesting by everybody

- Can be difficult to grasp at first

- Very theoretic

- Many topics could result abstract

- Many concepts to memorize and learn by heart

SOLUTION

H o w   c a n   w e   s o l v e   t h i s   p r o b l e m ?

- Helps students understand and memorize scientific concepts

- Makes learning more fun and interactive

- Makes concepts practical and easier to learn

THE BOT

How does it work?

- The bot consists of three games that will help you understand the concepts of science:

    1) Science quiz

    2) Musical chemistry

    3) Virsuality

INNOVATION

Why should you choose to follow our idea?

1. Make the learning process more effective and fun

2. Studying should not be something you are forced to do, but something you want to do for your personal growth

3. With this bot you can study and have fun: STOP feeling like you are wasting your time

CALL FOR ACTION

S u s t a i n a b i l i t y

- Is this bot sustainable?

  - Target: 2.500.000 students (ISTAT data)

  - First year: 5% → 125.000 students

    - → gain: 1€ / month = 125.000 € per month

- **Support us with our Crowd Funding!**

THANK YOU FOR YOUR ATTENTION
