Solution Details

Solution description

Our solution tool is a website. In this website you can find registration links of both local and international olympiads. Beside these you can find hackathons,camps and some competitions that may be benefical to you for supplying universities, and also to improve you. Main point of our site is that you can find information in one site which you had to look at lots of sites to get such information. Also, design of the website is neat, and easy to understand.

Solution context

We thought about the biggest education problems of students and we took an interview among more than 20 students. According to statics of our interview we realized most students can not get information about competitions and social activites. That causes talented student and youngs can't display and improve their abilities. We decided to create unique site which consists all activites(olympiads, scholarships condititions, international exams, scouting or volunteers camps) We believe that this site will be great friend for students who want improve themselves.

Solution target group

Our solution is for youngs and students who want get self-developing. They can get all information like registration link,deadline about social activities and various competitions without follow many instagram or facebook pages, telegram channels and many sites. They'll get these with a click.

Solution impact

Our website was designed to students and youngs in every case related with education.Our time - tables will help students to get high score.Because some students can not be prepare to exams because of late information.If they knew all dates previously,they could prepare with dicipline.Students realizing exam date lately can not get high mark or they should sleep less and it make them unhealthy.who can not sleep regularly they can not focus on something.
Second impact is to get information about study abroad and achieve a chance to be more qualified person with studying in top universtities.They can know internationals exams and scholarship with following us.
Third big influence is prevent to waste of time.You can get knowledge about something explore yourself.But we bring all informations together and you need not a lot of time for find separete website.

Solution tweet text

If you want to find about exams,olypiads,and social activities such as camping or competitions in just one place,and suffer from chaos of online education, this website is excatly for you! You can find information about ll social activities and dates of ur exams here!

Solution innovativeness

Our site differs from others for multiple-choice contests and real information. Youngs who want to participate in competitions can choose them according to their age and superior abilities. There are many sites for improvment and to study in abroad. For instance, olimpiada.edu.az is used by Azerbaijanis for get information about olympiads, and scholarships information are placed in universities' website. But we created unique website and that makes it original. We categorized the site and created systematic to save student's time. Our site is rare in world. We want to bring all innovativeness. For example, we plan that create common school exam system. This system will show all exams dates for each school. Schools can join us with sharing its exam's and weekly quizes dates. We make sample time table for "X" number school. You can glance this schedule in site. This'll help to student and prevent stress. Usually online education causes unknowing and decrease student's scores. Our all efforts are for students and we permanently will produce innovative ideas.

Solution transferability

We will make area for online lessons, webinars People can learn design coding making idea and improving it. We are going to share news about teachers who can help students in these cases Our idea require to create schedule for schools and it will be big help to management of school Students can know both dates and topics of exams which they will take in school with developing form of this site

Solution sustainability

In mid-term, this site can be known by a group people. And as time passes and the site is being developed and enlarged, this idea this website can be known by the all active youngs. Everyone who are interested in social activities and developing himself(herself) can benefit from this site. And the name of our site can be brend in this field in republic.

Solution team work

We think we did a great team work Because in our group, is recpect to each other. We appreciate and listen to carefully to ech other's opinions. That's why nobody is ashamed to say his or her own opinion Contraty we love that someone improve our idea And when we all enjoy working together. So yes we could continue (even to develope this site too.
